ABOUT ME

I am passionate about technology and programming, with practical experience in developing applications using C#, Java, and other programming languages, gained during my university studies. Throughout my studies and freelance activities, I have developed strong skills in web design, video editing, and project management.

EXPERIENCE

November 2019 - April 2021
(1 year and 6 months)

Freelancer - Web Designer

Fiverr, Remote (from home)

- Created online stores on the Teespring platform (product design, page setup, descriptions).
- Developed and customized WordPress websites for clients.
- Collaborated with international clients, ensured timely delivery, and adapted to diverse requirements.

- Video Editing
- Photo Editing
- WordPress
- Shopify
- Wix
- Teespring
- Design
- Social Media

OTHER SKILLS

- Attention to Detail
- Microsoft Office Suite
- Microsoft Word

EDUCATION

October 2022 - June 2025

(2 years and 9 months)

Bachelor's Degree: Mathematics-Computer Science

Faculty of Mathematics, "Alexandru Ioan Cuza" University of Iasi

- Languages and technologies studied: Java, Python, C++, C#, SQL, MySQL, Linux.
- Specialized internship: Practical training in Java and C# during university.

September 2018 - June 2022

(3 years and 10 months)

High School: Mathematics-Computer Science

"Roman Voda" National College, Roman

- Successfully completed the digital competencies exam in computer science.

PROJECTS

August 2023 - February 2025

(1 year and 7 months)

tools.deniscasian.com

Designed and developed a PWA (Progressive Web App) web utilities platform that runs 100% client-side, without a backend, for processing PDF files, images, and text. The application can be installed on desktop and mobile, works offline, and emphasizes data privacy since files are never uploaded to a server.

August 2023 - February 2025

(1 year and 7 months)

deniscasian.com

Created a personal interactive CV and portfolio website, built without frameworks, using HTML, CSS, and JavaScript, designed to showcase my experience, projects, and technical skills. The site includes a structured list of all completed projects, covering multiple programming languages and creative domains.

TRAINING

January 2025 - June 2025 (6 months)

Specialized internship in C# and Java, completed during university studies.

I applied theoretical knowledge in practical projects, developing applications and solving real-world problems using C# and Java. This training strengthened both my programming skills and my ability to work in a team.
